

# COLOR SELECTOR

# ALIR<sup>®</sup>

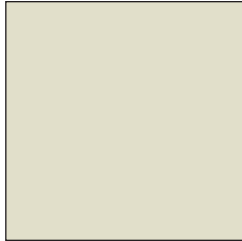

Systems, Inc.

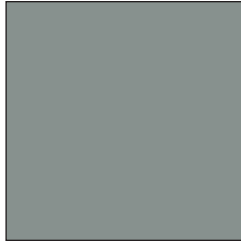

**ALIR** laboratory, institutional, and research furniture is finished utilizing a state of art powder coating process. This process produces an excellent finish, and by its nature provides superior chemical and abrasive resistant characteristics. Produced under ISO quality standards, **ALIR** furniture provides a long lasting, durable finish that is also aesthetically appealing. The powder coating process never compromises the environment. The colors represented on the **ALIR** color selector represent as close as possible the actual finish color as applied to properly cleaned carbon steel materials. Variations in appearance and shading can be expected due to age of powder finish and lighting conditions under which the finish is viewed.
